Single-sided straight alveolar spoon (small) (Reconditioned)

Used, very good technical condition,
German production,

Single-sided straight alveolar spoon made of top quality stainless steel. It is used during surgical procedures in which there is a need to remove tooth splinters, ventricular septum, granules or granules,

The surgical teaspoon is finished on one side, unlike a bent tip teaspoon, it is designed for the jaw and not for the mandible,

The tool is profiled and lies perfectly in the hand, thus increasing safety during treatments. Thanks to the grooved surface it lies securely in the hand and does not slip out of it,

Dimensions:

Overall length: approx. 150 mm,

Spoon: 2,7 x 4,1 mm,

He has a current Technical Passport issued,

Warranty:

6 months for the domestic market - Poland,

1 month for the international market,

Possibility of financing (Poland only): Instalments, Leasing, Loan
