Smear test / tests Panbio COVID-19 Ag ABBOTT 25 pcs / pack (New)

New,

German production,

The Panbio COVID-19 rapid antigen test is a spot test to help detect an acute SARS-CoV-2 infection,

The test is carried out on material taken from a nasopharyngeal swab,

The result of the examination is available after only 15 to 20 minutes, so that the examination can be carried out directly on the spot in the doctor's office, hospital or clinic,

The Panbio COVID-19 rapid antigen test is on the BfArM list and is therefore reimbursed in accordance with the "Regulation on the right to be tested in connection with the direct detection of the SARS-CoV-2 coronavirus pathogen",

The packaging is included:

Test cassettes - 25 pieces,

Buffer solution (9 ml) - 1 piece,

Tubes and lids for extraction - 25 pieces each,

Smear with positive control - 1 piece,

Smear with negative control - 1 piece,

Sterile swabs to take samples from nasopharynx - 25 pieces,

Extraction tube rack - 1 piece,

Shortened guide - 1 piece,

Multilingual instruction manual - 1 piece,

Storage temperature: 2° - 30° C,

Sensitivity: 93.3%,

Specificity: 99.4%,
