CLINNOVA Podiatry Pro diagnostic and treatment chair (NV0695-CLS-SEERSMEDICAL) (New)

New,

English manufacture,

This chair has both an adjustable backrest with patient armrests and double adjustable footrests,

It is suitable for a wide range of seated examination procedures such as podiatry, lower limb ulcer clinics, orthopaedic casting (plaster surgery) and is also ideal for doctors' surgeries and health centres.

Adjustment of chair height, backrest, footrests, tilt and CPR by an electric actuator,

The chair is fitted with large castors with 125 mm central brakes (LWMD) and a classic base,

The table is equipped with two adjustable armrests,

Frame construction designed for easy use of the mobile lift,

The foot section is adjustable and can be extended which is useful for taller patients,

The table comes with a handheld remote control as standard,

Advantages of the Chair:

Electric height adjustment from 53 to 99 cm in just 15 seconds,

The chair has Trendelenburg and Anti Trendelenburg positions (+/- 15°),

Folding armrests and NV9005 paper roll holder as standard,

Remote control with digital display provides live information on height (cm), tilt angle (°) and Trendelenburg angle (°). Foot switch operation is available as an option (at extra cost),

Lifetime warranty on frame and 5 years warranty on all parts, excluding upholstery,

Choice of 15 standard antibacterial upholstery colours,

Antimicrobial powder-coated frame,

Free space under the frame for a portable lift,

Technical data:

70 cm bed width made of foam,

Safe working load and lifting capacity 285kg ,

Backrest adjustable from 0° to 80° ,
