Treatment table Wesseling BASIX 4T (BAS4TEMW) (New)

New,
Dutch manufacture,
This two-piece treatment table is suitable for a variety of purposes.
BasiX 4T has height-adjustable armrests next to the head section,
Thanks to the armrests, the patient can put his hands next to his head and assume a very comfortable position,
As the head section is also negatively adjustable, the neck and shoulders can also be well positioned,
BasiX 4T is also available with a tapered leg section.
Thanks to the scissor frame, the table has a wide range of height adjustment and lifts straight up.
The headrest can be adjusted both positively and negatively.
As standard, the table is adjustable by means of an electric actuator, has wheels with braking system and Trendelenburg position,
Technical parameters:
