REHA FUND BIOFLOTE 2000 Anti-decubitus mattress with pump (Reconditioned)

- Reconditioned (used),
- Technical condition: very good,
- Visual condition: very good,
- Real photographs of the product,
- Made in PRC, (2019),
- Power supply: 230 V,
- Frequency: 50/60 Hz,
- Pneumatic anti-decubitus mattress with bubble design for short-term home care. Ideal for people with risk of pressure sores or pressure sores up to grade I. It is dedicated to short-term home care during post-operative periods, during rehabilitation or for extended periods of lying down for most of the day. The mattress is constructed with 130 mini-chambers and two main sections, which alternately inflate or deflate, reducing the pressure of the base on the entire body surface of the person lying down in a 12-minute cycle. This arrangement allows the blood vessels at the pressure points on the body to be unclogged, thus supplying oxygen and nutrients to the soft tissues with blood. The quiet operation of the pump, the ease of adjusting the pressure in the mattress in relation to the patient's weight body and the sturdy construction are just some of the advantages of this mattress, which is one of the most popular models on the market,
