DRAGER BABYTHERM 8010 Neonatal incubator (Reconditioned)

- Reconditioned (used),
- Technical condition: very good,
- Visual condition: very good,
- Real photos of the product,
- Made in Germany,
- Power supply: 230 V,
- Frequency: 50/60 Hz,
- DRAGER Babytherm 8010 is a neonatal intensive care station, designed for warming therapy for both babies born at term and premature babies,
- The device can be used in operating rooms, neonatal wards, children's wards, maternity wards and pediatric intensive care units. The device can be operated by clinical or nursing staff under medical supervision,
- Babytherm's mission is to provide the neonate with an optimal thermo-neutral environment, that is, to prevent thermal stress resulting from overheating or hypothermia,
- Ceramic heating elements and special gold reflectors ensure even heating of the entire surface of the mattress, so the newborn will always be properly warmed, regardless of the positioning on the mattress,
- The integrated heated gel mattress ensures effective and constant heating of the baby,
- The ability to simultaneously observe central and peripheral temperatures provides clear information about the stability of the patient's temperature, which facilitates rapid detection of thermal stress,
- Integration of information from all medical devices at the care station ensures the highest optimization of work by minimizing errors, and saving time during basic procedures,
- The SmartSWIVEL mechanism ensures continuous even heating of the patient, even when the radiant heater is moved away to expand the field of access to the patient. As a result, the child is not subjected to the stress of hypothermia during, for example, X-rays or other procedures requiring free space directly above the crib,
- Two sensors ensure precise measurement of skin temperature also during kangarooing,
- The working light is equipped with day and night modes. Two brightness levels ensure proper illumination of the crib at any time,
- Incubator equipped with:
 - Control unit:
 - Located directly under the radiant heater, it is accessible from any side of the incubator, making it extremely easy and convenient to change settings,
 - Information is displayed on a large, bright digital display, visible from all sides,
 - Understandable alarm messages displayed on the control panel allow user to quickly remove the cause of the alarm,
 - Selectable menu in language: ENG, GER,
 - Radiator with lateral rotation along with automatic tilt,
 - Precise DRAGER SCALE located under the control unit with a permissible patient weight of up to 8 kg,
 - Indicator light that allows you to quickly locate the alarming incubator,
 - Electric height adjustment of the incubator with foot switches within 30 cm,
 - Two available rotating cabinets with dimensions: 32 x 32 x 12 cm including a rotating shelf with a maximum load capacity. 3 kg,
 - Hanger with 3 holders for liquid containers along with height adjustment within 48 cm,
 - 6x cable culvert allowing wiring of sensors and tubing to the inside of the incubator,
 - One-sided tilting top cover allowing direct contact with the newborn,
 - Lever-operated mechanism that allows for Trendelenburg positioning of 20° on both sides,
- Mobile on 4 casters with built-in brake,
- Includes:
 - User manual in Polish (PDF),
 - 2 x power cord,
 - Reusable gel mattress,
 - Two temperature sensors,
- Dimensions:
 - Overall: 130 x 70 x 190/220 cm,
 - Mattress: 72 x 48 cm,
- Weight: 135 kg,
- Has a current inspection and is ready for use,
- Issued Technical Passport (Service Report) valid for 12 months,
- Warranty:
 - 6-months for domestic market (Poland),
 - 3-months for the international market,
 - Possibility to extend the warranty up to 12-months for domestic and international market for a surcharge,
- Financing options (Poland only): Installments, Leasing, Loan,
