MediTop MT 1000 ENT unit (New)

- New,
- Made in the Netherlands,
- MT1000 is a versatile treatment unit that can be used multifunctionally. The treatment unit can be used as a mobile or stationary model. It is ideal for smaller practices, clinics or acute care,
- The MT1000 comes standard with 5 parking handles equipped with suction cup, cold light, LED light source and/or compressed air. The cabinet has 2 instrument trays, 1 storage drawer and 1 disposal drawer for used instruments and waste,
- MT1000 is suitable for multidisciplinary spaces. From outpatient clinics to emergency rooms. Because the MT1000 is customizable, many options are possible. The device is mobile as standard. If the device is used in a fixed space, it can be equipped with an integrated microscope, but still need a versatile treatment unit with an integrated microscope,
- The device is also available in a stationary version, allowing integration of a microscope. This is especially useful if you have limited space
- The touchscreen control panel is intuitive to use and contributes to the user-friendly concept of the MT1000.
- Instruments can be set up ready for use and always at hand. Instruments placed in holders are automatically activated when removed and deactivated when reinserted,
- MT 1000 standard version:
 - 2 instrument trays and 5 holders
