OLYMPUS ETD4 PAA PLUS Endoscope washer (Reconditioned)

- Reconditioned (used),
- · Technical condition: very good,
- · Visual condition: very good,
- Real photos of the product,
- Made in Germany, (2014),
- Power supply: 400 V,
- Frequency: 50/60 Hz,
- Power: 9.2 kW,
- Easy-to-use endoscope channel connectors allow easy connection of any Olympus endoscope and other compatible endoscope brand,
- Fast as well as accurate data acquisition:
 - · Built-in magnetic-inductive robust flow sensors,
 - Reliable operation with a full range of different endoscopes,
- Technical specifications:
 - Ability to wash endoscopes from various manufacturers:
 - Olympus,
 - Pentax,
 - Fujinon,
 - Karl Storz,
 - Possibility of low-temperature disinfection with peracetic acid 35°C,
 - Operation in a sealed closed system, the device equipped with a vapor condenser,
 - · Protection against secondary contamination of the equipment after completion of the equipment after disinfection,
 - Automatic control of endoscope leakage during the entire process,
 - · Automatic interruption of the process if endoscope leakage is detected during the process,
- Drying of the external and internal surfaces of the endoscopes at the end of the process with the ability to choose between two levels of drying,
 - Ability to program individual stages of the cleaning and disinfection process directly from the keypad or control panel:
- The type and stages of decontamination processes have been programmed and validated by the manufacturer, the user can choose among several washing and disinfection modes,
 - Equipped with a system to ensure high microbiological quality of water for the final rinse process:
 - UV lamp and disinfection of rinse water with PAA in low concentration,
 - Capacity: 2 flexible endoscopes (optional up to 4 ENT endoscopes),
 - Routing: compatible with Olympus PAA,
 - Measurement of dosage amount,
 - Temperature measurement using temperature sensors (with calibration capability),
 - Ability to use chemicals from different manufacturers (for cleaning and disinfection):
- Use of fluids recommended by the manufacturer, tested and guaranteeing the effectiveness of the decontamination process in accordance with EN ISO 15833-1 and -4,
 - Water process: hot or cold water (drinking water ensures microbiological quality):
 - Max 4°dH,
 - Conductivity >100 µS/cm,
 - pH: 6.5-9.5.
 - PAA process: max. 25 °C,
 - Pump flow rate: 400 l/min,
 - Washing chamber capacity: 165 l.,
- Included:
 - Power cord,
 - Baskets for endoscopes:
 - E601-3,
 - E601-4,
 - Closable basket: 14 x 21 x 5 cm,
- Overall dimensions of the washer: 90 x 60 x 85 cm,
- Weight: 133.5 KG,
- Has a current inspection and is ready to work,
- Issued Technical Passport (Service Report) valid for 12 months,
- Warranty:
 - · 6-months for domestic market (Poland),
 - 3-months for the international market,
- Possibility to extend the warranty up to 12 months for domestic and international markets for a surcharge,
- · Possibility of financing (Poland only): Installments, Leasing, Loan,
