DRAGER D-VAPOR 3000 (Desofluran/Desoflurane) inhalation agent vaporizer (Reconditioned)

- Reconditioned (used),
- Technical condition: very good,
- Visual condition: very good,

- **Real product photos,**

- German production, (2013),
- Power supply: 230 V,
- Memory backup power supply: via 1 new built-in 6V battery,
- Frequency: 50/60 Hz,
- Software: 3.00,

- **The D-Vapor 3000** is an anesthetic vaporizer designed for use with Drager anesthesia machines,

- It is used to vaporize desflurane, a strong inhalation anesthetic,

- **The D-Vapor 3000** is a precise and reliable vaporizer that offers many features that improve safety and ease of use,

- **Characteristics:**

- The volume of the vaporizer is 300 ml, so the entire contents of a standard 240 ml anesthetic bottle can be poured into the vaporizer, even if there is anesthetic left inside from the previous filling,
- Unique transport feature - vaporizers can be carried in any position because the transport lock prevents the anesthetic from spilling, so it can be used immediately after transport,
- All filling systems are designed specifically for specific inhalation anesthetics, eliminating the risk of accidentally using the wrong anesthetic.

- **Technical specifications:**

- Flow range: From 0.2 to 15.00 (L/min),
- Possibility to adjust the desoflurane concentration in the range of 2 - 18%,
- Infusion type: Drager Fill,
- This evaporator uses an AUTO-EXCLUSION mounting,

- **Included in the set:**

- Power cord,
- Dimensions: 11 x 26 x 26 cm,
- Weight: 6.4 kg,

- **It has a current inspection and is ready to work,**

- **Issued Technical Passport (Service Report) valid for 12 months,**

- **Guarantee:**

- **6 months for the domestic market (Poland),**
- **3 months to the international market,**
- **Possibility of extending the warranty for an additional fee up to 12 months for the domestic and international markets,**

- Financing options (Poland only): Installments, Leasing, Loan,
