

## **YESON SMART + (New)**

- New,
- **Features and advantages of the welding machine:**
  - A very elegant, energy-saving welder equipped with an electronically controlled heating element,
  - A modern device that helps prepare paper-foil packages for sterilizing tools in an autoclave,
  - Sterilization in packages is considered to be a particularly effective, safe and convenient method,
  - It allows you to store sterile tools for a longer period of time after the process has been carried out,
  - The sealer can be used to close ready-made packages or sleeves in rolls of various widths,
  - A knife with a double-sided blade allows precise cutting of the required section of the sleeve,
  - Automatic temperature control of the heating element helps to obtain very good quality welds,
  - Device status indicated by a diode,
  - Energy saving function - automatic switch to standby mode during a break in work,
- **Technical data:**
  - Voltage 230V / 50Hz,
  - Power 500W,
  - Maximum weld length 300 mm,
  - Seam width 12 mm,
  - Device weight 8.8 kg,
  - Dimensions: 517 x 283 x 205 mm,
- Has a valid Technical Passport issued,
- 12 month warranty,
