

DRAGER VAPOR 2000 (Sevoflurane/Sevoflurane) inhalant vaporizer (Reconditioned)

Reconditioned (used),

Technical condition: very good,

Visual condition: very good,

Real photos of the product,

German manufacture, (2017),

Drager Vapor 2000

is a safe and precise vaporizer of inhalants,

Product features:

The volume of the vaporizer is 300 ml, so that the entire contents of a standard 250 ml anesthetic bottle can be poured into the vaporizer, even when there is anesthetic left inside from the previous filling,

The vaporizer does not require calibration during use,

Unique transport function - vaporizers can be carried in any position, as the transport safety device prevents spillage of the anesthetic, so it can be used immediately after transport,

All filling systems have been designed specifically for specific inhalation anesthetics, which means the risk of mistakenly using the wrong anesthetic is eliminated,

The particular vaporizer uses the Drager DW - 2000 attachment,

Fill type: Drager Fill,

Adjustable sevoflurane concentration in the range of 0 - 8% ,

Includes:

User manual in English (PDF),
