DRAGER VAPOR 2000 (Sevoflurane/Sevoflurane) inhalant vaporizer (Reconditioned)

Product temporarily unavailable

Reconditioned (used),

Technical condition: very good,

Visual condition: very good,

Actual product photos,

Made in Germany (2017),

Drager Vapor 2000

is a safe and precise vaporizer for inhalation agents.

Product features:

The vaporizer's volume is 300 ml, allowing the entire contents of a standard 250 ml anesthetic bottle to be poured into the vaporizer, even if anesthetic remains inside from the previous refill.

The vaporizer does not require calibration during use.

Unique transport feature - vaporizers can be carried in any position, as the transport lock prevents anesthetic spillage, so they can be used immediately after transport.

All filling systems have been designed specifically for specific inhalation anesthetics, eliminating the risk of mistakenly using the wrong anesthetic agent.

In a given The vaporizer features the Drager DW-2000 mount.

Infusion type: Drager Fill.

Sevoflurane concentration can be adjusted from 0 to 8%.

Includes:

Instructions for use in English (PDF).
