Ophthalmoscope (binocular) OCULUS 1160 (Reconditioned)

Reconditioned (used),
Technical condition: very good,
Visual condition: very good,
Real product photos,
Produced in Austria,
Power supply: 230 V,
Frequency: 50/60 Hz,

Light source power supply: battery 6 V / 1.2 Ah (charged from transformer),

Light source (halogen bulb): 6 V / 10 W,

Indirect ophthalmoscope (binocular)

OCULUS 1160

is an indispensable tool for comprehensive, stereoscopic assessment of the fundus, especially peripheral retina and optic disc. Although it provides an inverted image, its advantages in field of view and depth of focus make it a basic instrument in the work of an ophthalmologist, retina specialist and during surgical procedures,

Applications:

Assessment of the peripheral retina - in diagnostics e.g. holes, tears, retinal degenerations, as well as in pre-laser assessment,

Evaluation of the optic disc - e.g. in glaucoma or in optic disc edema,

Examination of patients with cataracts,

Diagnosis of retinal detachment,

Pediatric examinations - often under general anesthesia,

During retinal and vitreoretinal surgeries (then used is an operating microscope connected to an indirect optical system),

Equipment:

Power transformer SONNENSCHNEIDEN,

Light source with halogen bulb 6 V / 1.2 Ah,

2x binocular connection cable with light source,

Head diameter adjustment: 15.5 - 21 cm

Total weight: 2 KG,

Has a current inspection and is ready for use,

Technical Passport (Service Report) valid for 12 months,

Warranty:

6 months on the domestic market (Poland),

3 months on the international market,

Option to extend warranty with surcharge up to 12 months for domestic and international market,

Warranty period does not include bulbs and other light sources installed in the device,

Financing options (only Poland): Installments, Leasing, Loan,
