Autoclave EUROPA B EVO (New)

New,

Made in Italy,

Class B autoclave,

Europa B Evo is the latest generation of autoclave with several new features compared to the previous model Europa BXP,

The new control panel with its blue display is very modern and striking,

A real innovation is the new charging cap placed flush with the front of the front panel of the autoclave,

The autoclave has the following sterilisation cycles:

134°C - packaged and unpackaged instruments,

121°C - packed and unpacked instruments,

fast cycle,

special cycle PRION, used for Creutzfeldt Jacobs disease,

night cycle - without the participation of the operator with automatic switching off at the end of work.

Advantages and features of the autoclave:

Maximum load per cycle 5 kg,

Built-in printer,

3 safety devices on the door: electromagnetic, electrical, dynamic,

Control card installed on board,

Graphic display,

Automatic barometric equalisation system,

Pump filling system with automatic stop when the tank is full,

Forced ventilation system built into the unit,

Safety tray holder to prevent contact between the load and the chamber,

P.I.D. system:

A system that continuously monitors and controls every process and function of the autoclave.

It diagnoses and reduces abnormalities and warnings (if any) in real time, guaranteeing reliability while minimising periods of downtime.
