Treatment table Wesseling KOMBI ELITE S (New)

New guy,
Dutch production,
The Elite S Combo is the sister of the successful Elite Combo Combo.
This table has a shorter part of the seat, 40 cm long, so that the patients are better prepared for the treatments.
This table has a large height adjustment range for an ergonomic working environment.
Due to its highest position of 112 cm, treatments can often be performed in a standing position.
Due to the unique separation of the sections, this table can be used for almost any treatment in general or gynaecological practice.
Round legs and thicker table profiles not only look beautiful, but are also very strong and stable.
The height of the table can be adjusted by means of an electric actuator,
