Diagnostic and examination table ASES H (New)

New,
Made in Poland,
Sturdy steel structure coated with powder paint,
Standard features include a three-section plywood sleep surface,
The central part of the bed can be raised to an angle of 30°, which facilitates USG examinations,
Height adjustment of the table is carried out with a hydraulic actuator, in this model a fully bearing-mounted height adjustment mechanism is used,
Individual parts of the tabletop are adjusted by gas springs,
It is possible to order upholstery in the colour of your choice free of charge, except for "PRESTIGE" colours which are available at an extra charge,
Table features and benefits
Gas spring from the German company BANSBACH,
Upholstery of very good quality,
Foam, 5 cm thick,
Steel ball bearings are used in the movable parts of the table, which makes the table very reliable,
Frame elements made of the best Polish steel,
As additional options are available (for an extra charge):
Armrests,
Hanger for pad,
Castor system,
Euro rails (40cm),
Knee pads,
Injection support,
Technical parameters:
Length 200cm
